

STUDENTS VACCINATION INFORMATION FOR CTACS - EDINBURGH

CTACS currently receives a large volume of enquiries regarding student's vaccinations.

The Edinburgh CTACS team has therefore set up a self-referral email address to relieve our phone lines, to focus on wound care and emergency appointments. This email will also be monitored by CTACS Clinical Leads who will be able to provide additional guidance if required.

Students who reside in Edinburgh and are under the age of 25 can self-refer to CTACS for the following vaccinations.

HPV
MMR
MenACWY

From 1st of January 2023, patients only require 1 dose of HPV. If patients have already received their first dose please do not refer them to CTAC as this vaccination will not be administered.

Patients are asked to provide their:

Full Name,
Date of Birth
Address
CHI number if known.

This email has an automatic reply in Simplified Chinese, Traditional Chinese and Arabic.
